Profile Summary

Python Developer with more than 1 year of experience in designing, developing and maintaining backend applications and web services. Experienced in building RESTful APIs, integrating databases, implementing authentication & authorization and delivering scalable, maintainable solutions. Skilled in collaborating with cross-functional teams to deliver reliable, high-quality software.

Backend Skills

- Python
- Django
- Flask
- Django REST Framework (DRF)
- JWT-based authentication & session management
- Google OAuth2 (social login) integration
- REST API development & CRUD operations
- User authentication, authorization, and protected routes
- Database handling (Django ORM, Flask ORM, MySQL, SQLite)

Frontend Skills

- HTML, CSS, JavaScript
- Fetch API / AJAX for frontend-backend communication
- DOM manipulation & dynamic page updates
- LocalStorage for client-side session management
- Bootstrap, Tailwind CSS, jQuery
- Responsive & mobile-friendly designs

Tools, IDEs & DevOps Skills

- Git, GitHub
 - VS Code, PyCharm
 - Figma (Design & Prototyping)
 - CI/CD: GitHub Actions, Deployment Automation
-

Projects

- **AI-powered Resume Analyzer** – [Live Demo](#)

Analyzes resumes using AI techniques to evaluate skills, keywords and formatting.

- **AI Scam Detector** – [Live Demo](#)

Detects scam messages, suspicious links and potentially harmful content using pattern-based logic.

- **AI Website UX Critic** – [Live Demo](#)

Provides UX suggestions, page ideas and improvements for better user experience.

Professional Experience

Associate Web Developer – Cybexel Technologies Pvt. Ltd | Nov 2024 – Present

- Designed, developed and maintained web-based applications with scalable backend architecture.
- Built and maintained RESTful APIs using Django REST Framework and Flask.
- Implemented CRUD operations, authentication and role-based access control.
- Optimized database queries and managed PostgreSQL & MySQL efficiently.
- Collaborated with cross-functional teams to deliver end-to-end solutions.
- Implemented CI/CD pipelines for automated testing and deployment.

Python Full Stack Developer (Intern) – SMEC Labs, Kochi | May 2024 – Nov 2024

- Developed web applications using Django backend and HTML, CSS, JavaScript, Bootstrap and Tailwind CSS.
- Designed and consumed REST APIs to implement business logic and dynamic data handling.
- Created and optimized relational database schemas using MySQL and PostgreSQL.
- Implemented responsive and mobile-friendly designs with cross-browser compatibility.
- Used GitHub for version control and team collaboration.

Education

- **Master of Computer Applications (MCA – Artificial Intelligence)** – Vellore Institute of Technology (VIT) | 2026 – Present
- **Bachelor of Computer Applications (BCA)** – Saintgits College of Applied Sciences | Completed 2024
- **Higher Secondary (Bio-Maths)** – St. Anne’s G.H.S.S, Kottayam | Completed 2021

Certifications

- Python Full Stack Developer – SMEC Labs, Kochi
- Coursera – Build a Data Science Web App with Streamlit and Python
- TCS iON Career Edge – Communication Skills
- Project Management Assessment – LearnTube.ai

Achievements

- Journal Publication & Conference Presentation: Pneumonia Detection using Deep Learning (National Conference)
- National Research Conference – Vijnan
